	This range has been launched as a result of demand by our customers. The range will comprise a selection of highly effective products. Due to the nature of some of the ingredients used in them, we feel that these products do not fully fit into the existing Organic Care Systems and Organic Control Systems ranges. As new ingredients become available and we are able to reformulate these products, we will move them out of the Organic Connect range into Organic Care or Control Systems. In the meantime we hope they will provide a solution to some of your hairdressing needs.
